THE ALL-AMERICA GLADIOLUS RELEASES

APPLEBLOSSOM—A gladiolus of the utmost delicacy of coloring, the predominating hue being snowy white with a faint touch of cream in the throat and an exquisite flush or corona of cool rose pink at the edges of the petals. Up to eight or ten tailored florets, about five inches in diameter and of very heavy substance, are open at a time on spikes up to five feet tall. A vigorous, easy grower that performs excellently with only average culture. APPLEBLOSSOM will give you a new conception of gladiolus beauty when it blooms in your garden.

CARIBBEAN—The delicate blue tones of this exciting novelty present an unusual combination of rare blue-violet petals handsomely embellished by a rich, deep violet throat and a small cream spear. CARIBBEAN opens from 9 to 11 precisely styled florets at one time in formal, double-row placement. It possesses a quality uncommon to many varieties and almost a rarity among "so-called blue glads," that of extreme vigor. Its refreshing beauty will make it a sure-fire winner in its class at flower shows.

EMPEROR—A true aristocrat, this glad of regal purple trimmed in ermine-white presents a stately display. EMPEROR makes majestic spikes growing five feet or more tall with 7-8 of its round, recurved florets open at one time. The plants are unusually robust and the spikes consistently tall and straight. The rich, distinctive color of EMPEROR, its health and vigor, and ease of growing are characteristics which make it an ideal flower for the home garden.

MAYTIME—A light-hearted charm surrounds this brightly colored glad. The gracefully ruffled deep, pure pink florets with their contrasty large white throats bring back memory of the freshness of May-blooming flowers. It readily opens 8 to 10 florets on spikes of five and one-half feet tall. An ideal flower for either cutting or exhibition and a gem for the home garden.

ROYAL STEWART—A truly remarkable new gladiolus that has been widely acclaimed for its consistently fine performance under an extensive test program throughout the United States and Canada. The lightly ruffled florets are five inches in diameter and are good substance. They are a clear light red and the long flowerheads frequently carry up to twelve flowers at a time. Growth is vigorous and healthy, with the total height of the plants running about five feet. On occasions when it has been exhibited at gladiolus shows, ROYAL STEWART has proved to be an outstanding winner of top awards.

(The right to reproduce the All-America varieties for wholesale purposes or to sell cutflowers is reserved.)
